1. What did you use the water for (decon?)
2. I guess since we have to fill out a form, the City is not going to donate the remainder of the 230,000 gallons.

Subject: **Donation of water service to US EPA clean up efforts**

Mr. Askanase,

On June 5, 2015, US EPA returned the transient meter to the City and disconnected water service. As you recall, the Deputy Director of our Public Works and Engineering Department located community service grant funds to cover this cost (but not sewer service costs). In September, the City was told 250,000 gallons of fresh water would be required. In the end, US EPA used only 20,000 gallons.

Therefore, the total cost savings to US EPA and the Trustee came to **\$270.80**.

The City appreciates the opportunity to assist EPA in making amazing and tangible progress towards cleaning this site up, and in bringing some much needed relief to the adjacent neighborhoods.

Finally, I understand that a new group has, or will soon, be continuing the cleanup efforts. They can find an application for water and sewer service here:

http://edocs.publicworks.houstontx.gov/documents/divisions/resource/ucs/app_commercial_multi_fam.pdf

All the best,

James
